The following enhancements have been made to online banking:

Mobile

- Added support for viewing and editing email addresses and phone numbers in mobile settings.
- Mobile now offers ability to link an internal account as a transfer destination. This is existing desktop functionality that is now available in mobile.
- Mobile now offers ability to link an external ACH account. This is existing desktop functionality that is now available in mobile.
- Touch ID Login for Android now available.
- Balance peek feature now available on Mobile. The balances displayed are based on the account sync functionality within online banking. In the event the sync occurs while the user selects the Balance Peek feature the user will see the last balances before the new sync started. If they refresh the Balance Peek after the sync completes the user will see the new, updated balance.
- Members may now access account via wearable devices/ smartwatches.

Other

- Mastercard split rate Annual Percentage Rates (APRs) now display.
- Members can now make partial payments on their mortgage.
